DO NOT WRITE IN THIS MARGIN

Parameter	String returned	Explanation
"0010010110"	"0010010110 0 "	there are an even number of 1s in the string passed to <code>Parity()</code> so a '0' is concatenated to the end of <code>BitString</code>
"101010"	"101010 1 "	there are an odd number of 1s in the string passed to <code>Parity()</code> so a '1' is concatenated to the end of <code>BitString</code>

Assume the parameter `BitString` can only contain the characters '0' and '1'

This image shows a full page of white paper with horizontal ruling lines. The lines are evenly spaced and extend across the width of the page, providing a template for handwriting practice or general writing. There are no margins, text, or other markings on the page.
