

- 4 The TCP/IP protocol may be viewed as a stack that contains four layers: Application, Transport, Internet, Link.

Describe how the layers of the TCP/IP protocol stack interact with each other.

.....

.....

..... [4]

- 5 (a) Explain what is meant by a hashing algorithm in the context of file access.

.....

.....

.....

.....

.....

.....

..... [3]

- (b) The use of a hashing algorithm can result in the same storage location being identified for more than one record.

Outline **two** methods of overcoming this issue.

1

.....

2
