

9 (a) Deep Learning is a form of Machine Learning.

(i) State **one** example where Deep Learning is used.

.....
..... [1]

(ii) Identify how Deep Learning can be made more effective.

.....
..... [1]

(b) Describe the back propagation of errors method in Machine Learning.

.....
.....
.....
.....
.....
.....
.....
..... [4]

10 An exception is an error that may cause a program to halt unexpectedly.

(a) Describe how program termination due to an exception can be avoided.

.....
.....
.....
.....
..... [2]
