

- (e) It is suggested that the relationship between y , T and x is

$$ky = Tx$$

where k is a constant.

- (i) Using your data, calculate **two** values of k .

first value of k =

second value of k =

[1]

- (ii) Justify the number of significant figures that you have given for your values of k .

.....

 [1]

- (f) It is suggested that the percentage uncertainty in the values of k is 20%.

Using this uncertainty, explain whether your results support the relationship in (e).
