

- (i) Determine the internal energy of the gas in state A.

internal energy = J [2]

- (ii) Determine the temperature of the gas in state B.

temperature = K [1]

- (iii) Determine the volume of the gas in state C.

volume = m³ [1]

- (iv) On Fig. 3.1, draw two lines, one to represent change X and one to represent change Y.
Label your lines X and Y respectively. [3]

[Total: 9]
