

2 An employee of a company sells houses. He sends images of the houses to his company.

- (a) The employee compresses the image files using lossy compression before sending them. Lossy compression reduces the size of the image files.

Give **two** other reductions that lossy compression makes to the images.

1

2 [2]

- (b) The image data is broken down into packets to be sent across a network to the company.

The destination internet protocol (IP) address is read by a device in the network. The device uses the IP address to forward the packet towards its correct destination.

- (i) State the name of the device that reads the destination IP address.

..... [1]

- (ii) Identify the part of the packet where the destination IP address is found.

..... [1]

- (c) The IP address has an IPv6 format.

Give **three** characteristics of the IPv6 format.
