

# Cell structure

A Level Biology · Vocabulary

| English                      | 中文     | Pinyin                     |
|------------------------------|--------|----------------------------|
| cell                         | 细胞     | xì bāo                     |
| microscope                   | 显微镜    | xiǎn wēi jìng              |
| light microscope             | 光学显微镜  | guāng xué xiǎn wēi jìng    |
| specimen                     | 标本     | biāo běn                   |
| temporary preparation        | 临时装片   | lín shí zhuāng piàn        |
| slide                        | 载玻片    | zài bō piàn                |
| stain                        | 染色剂    | rǎn sè jì                  |
| cover slip                   | 盖玻片    | gài bō piàn                |
| magnification                | 放大倍数   | fàng dà bèi shù            |
| micrometre                   | 微米     | wēi mǐ                     |
| nanometre                    | 纳米     | nà mǐ                      |
| chloroplast                  | 叶绿体    | yè lǜ tǐ                   |
| photomicrograph              | 显微照片   | xiǎn wēi zhào piān         |
| electron micrograph          | 电子显微照片 | diàn zǐ xiǎn wēi zhào piān |
| eyepiece graticule           | 目镜测微尺  | mù jìng cè wēi chǐ         |
| calibrate                    | 校准     | jiào zhǔn                  |
| stage micrometer             | 载物台测微尺 | zài wù tái cè wēi chǐ      |
| resolution                   | 分辨率    | fēn biàn lǜ                |
| wavelength                   | 波长     | bō cháng                   |
| electron microscope          | 电子显微镜  | diàn zǐ xiǎn wēi jìng      |
| electron                     | 电子     | diàn zǐ                    |
| scanning                     | 扫描     | sǎo miáo                   |
| transmission                 | 透射     | tòu shè                    |
| eukaryotic cell              | 真核细胞   | zhēn hé xì bāo             |
| nucleus                      | 细胞核    | xì bāo hé                  |
| organelle                    | 细胞器    | xì bāo qì                  |
| cytoplasm                    | 细胞质    | xì bāo zhì                 |
| cell surface membrane        | 细胞膜    | xì bāo mó                  |
| nuclear envelope             | 核膜     | hé mó                      |
| nucleolus                    | 核仁     | hé rén                     |
| rough endoplasmic reticulum  | 粗面内质网  | cū miàn nèi zhì wǎng       |
| protein                      | 蛋白质    | dàn bái zhì                |
| antibody                     | 抗体     | kàng tǐ                    |
| smooth endoplasmic reticulum | 滑面内质网  | huá miàn nèi zhì wǎng      |
| lipid                        | 脂质     | zhī zhì                    |
| Golgi body                   | 高尔基体   | gāo ěr jī tǐ               |
| vesicle                      | 囊泡     | náng pào                   |
| secretion                    | 分泌     | fēn mì                     |
| mitochondria                 | 线粒体    | xiàn lì tǐ                 |
| respiration                  | 呼吸作用   | hū xī zuò yòng             |
| energy                       | 能量     | néng liàng                 |
| ribosome                     | 核糖体    | hé táng tǐ                 |
| amino acid                   | 氨基酸    | ān jī suān                 |
| synthesise                   | 合成     | hé chéng                   |
| lysosome                     | 溶酶体    | róng méi tǐ                |
| enzyme                       | 酶      | méi                        |
| centriole                    | 中心粒    | zhōng xīn lì               |

| English          | 中文   | Pinyin            |
|------------------|------|-------------------|
| microtubule      | 微管   | wēi guǎn          |
| cilia            | 纤毛   | xiān máo          |
| microvilli       | 微绒毛  | wēi róng máo      |
| absorption       | 吸收   | xī shōu           |
| photosynthesis   | 光合作用 | guāng hé zuò yòng |
| cell wall        | 细胞壁  | xì bāo bì         |
| cellulose        | 纤维素  | xiān wéi sù       |
| plasmodesmata    | 胞间连丝 | bāo jiān lián sī  |
| vacuole          | 液泡   | yè pào            |
| tonoplast        | 液泡膜  | yè pào mó         |
| prokaryotic cell | 原核细胞 | yuán hé xì bāo    |
| bacterium        | 细菌   | xì jūn            |
| unicellular      | 单细胞  | dān xì bāo        |
| peptidoglycan    | 肽聚糖  | tài jù táng       |
| virus            | 病毒   | bìng dú           |
| non-cellular     | 非细胞  | fēi xì bāo        |
| nucleic acid     | 核酸   | hé suān           |
| capsid           | 衣壳   | yī ké             |
| envelope         | 包膜   | bāo mó            |
| phospholipid     | 磷脂   | lín zhī           |
| host             | 宿主   | sù zhǔ            |
