

# Organic synthesis

A Level Chemistry · Vocabulary

| English                    | 中文   | Pinyin            |
|----------------------------|------|-------------------|
| functional group           | 官能团  | guān néng tuán    |
| acyl chloride              | 酰氯   | xiān lǜ           |
| phenol                     | 苯酚   | běn fēn           |
| arene                      | 芳烃   | fāng tīng         |
| electrophilic substitution | 亲电取代 | qīn diàn qǔ dài   |
| reduction                  | 还原   | huán yuán         |
| oxidation                  | 氧化   | yǎng huà          |
| carboxylic acid            | 羧酸   | suō suān          |
| ester                      | 酯    | zhǐ               |
| amine                      | 胺    | àn                |
| amide                      | 酰胺   | xiān àn           |
| nitrile                    | 腈    | jīng              |
| synthetic route            | 合成路线 | hé chéng lù xiàn  |
| reagent                    | 试剂   | shì jì            |
| addition-elimination       | 加成消去 | jiā chéng xiāo qù |
| by-product                 | 副产物  | fù chǎn wù        |
