

9 Different energy resources are used to produce electricity on a small island.

The chart shows the percentages of each energy resource used in 2000 and in 2024.

Which row correctly describes any changes in the percentage for 2024 compared with 2000?

	percentage of energy resource used	
	coal	renewable
A	decrease	no change
B	no change	increase
C	decrease	increase
D	no change	no change
